

ParkDocTM

MODEL: PD-16

ParkDoc is a residential parking curb used on interior garage flooring to promote safe parking. Drivers can park their vehicles in the optimal position in their garage space with ease, avoiding the risk of damage to garage doors and vehicles as well as impact with items and walls in close quarters. When vehicle tires make contact with their ParkDoc, drivers know they have reached their prescribed parking location. Note: This product is not intended for use with large commercial vehicles or forklifts.

CUSTOMIZATION

In addition to increased parking safety and precision, ParkDoc offers customization options for co-branding, creating marketing and brand awareness options for your business.

1. Add-on sale opportunities
2. Marketing benefits:
 - Brand awareness: Option to co-brand with company name and phone number
 - Promotional gift: Thank you gift for new business
 - Reminder: Send to customers to remind them it's time to make an appointment
 - Retail sales: Consumer-friendly packaging allows you to sell ParkDoc to walk-in customers
